RECOMMENDATION:

Adopt Resolution No. 3746 Declaring Intent to Convey Public Utility Easement to Pacific Gas & Electric, as submitted.

DISCUSSION:

The District desires to install electrical charging stations on the Property to charge the District's electrical school buses. To allow for the installation of the charging stations, it is necessary that Pacific Gas & Electric (PG&E), a public utility, make certain utility improvements on the Property. PG&E desires to acquire an easement over a portion of the Property for the purpose of constructing, maintaining, and repairing such utility improvements. The easement will be on the portion of the Property that is highlighted in yellow on the attached Exhibit 1.

Pursuant to Education Code section 17566, a school district governing board may dedicate or convey to any public corporation or private corporation engaged in the public utility business an easement to lay, construct, reconstruct, maintain, and operate water, sewer, gas, or storm drain pipes or ditches, electric or telephone lines, and access roads used in connection therewith, over and upon any land belonging to the school district, upon such terms and conditions as agreed to by the parties. Education Code section 17577 requires the Governing Board, by not less than a two-thirds vote of all of its board members, to adopt a resolution declaring its intention to dedicate or convey the easement and set a public hearing not less than 10 days thereafter on the question of making the conveyance.

By adopting the proposed resolution, the Board would declare its intention to convey the necessary easement to PG&E and set a Public Hearing to be held at the Board meeting on April 22, 2020. The proposed resolution must be adopted by at least a two-thirds vote of all of the Board Members and be signed by the Board Members or a majority thereof.

Title: Accept Award from K12 Strong Workforce Program

CONTACT PERSON: Norm Anderson

FOR INFORMATION: April 1, 2020 FOR ACTION: April 22, 2020

RECOMMENDATION:

Authorize the Superintendent or designee to accept an award of \$1,410,717 from the K12 Strong Workforce Program supported by the California Community Colleges Chancellor's Office (CCCCO), in partnership with the California Department of Education (CDE).

DISCUSSION:

The purpose of the K12 Strong Workforce Program (K12 SWP) is to create, support, and/or expand high-quality Career Technical Education (CTE) programs at the K-12 level. Funding is intended for efforts that (1) are aligned with the workforce development efforts occurring through the Strong Workforce Program, (2) are responsive to regional economic priorities, and (3) increase the transition from secondary to post-secondary and career with an emphasis on a collaborative approach between the K-12 and community college system.

Two new programs will assist with providing access and awareness to students interested in CTE. The overall goal of the Careers in Special Education (CASE) Project is to increase the number of CUSD students who complete the 9-12 Careers in Education pathway, transition into a pathway-related post-secondary program of study, and complete a bachelor's degree and teaching credential that qualifies them to serve Special Education students. The Realizing Inclusion of Special Education in CTE (RISE CTE) Project is designed to increase the number of Special Education students who successfully complete a 9-14 CTE pathway and secure an associate degree and/or technical certificate leading to a high-wage, high-skill, high-growth career.

FISCAL IMPACT/FUNDING SOURCE:

Title: Annual Agreement with Advancement Via Individual Determination (AVID) Center

CONTACT PERSON: Norm Anderson

FOR INFORMATION: April 1, 2020 FOR ACTION: April 22, 2020

RECOMMENDATION:

Authorize the Superintendent or designee to renew an agreement with the Advancement Via Individual Determination (AVID) Center for the 2020-21 school year, as submitted.

DISCUSSION:

The AVID College Readiness System is dedicated to closing the achievement gap for all students by preparing them for success in secondary school, college and career. The focus is on meeting the needs of students who traditionally have been underrepresented in higher education.

Contracts with AVID provide teachers with research-based strategies and curriculum at all secondary schools for grades 7-12, as well as at Fort Washington, Jefferson, Miramonte, Pinedale, Tarpey and Weldon elementary schools.

Contracts also provide annual District leadership training, staff training and summer institute opportunities, which are considered by many to be some of the best education-related professional learning in the country. AVID's impact goes beyond the AVID elective and uses academic strategies school-wide such as writing to learn, inquiry, collaboration, organizational skills and critical reading, as trained teachers use AVID library/materials and methodologies in their specialized content areas.

FISCAL IMPACT/FUNDING SOURCE:

Staff Development Funds not to exceed \$200,000.

FINESFEES AND CHARGES

PURPOSE: To address the payment of, and establish procedures for complaints regarding,

student fees, and establish procedures for the collection of unpaid permissible

student fees.

The Board recognizes its responsibility to ensure that books, materials, equipment, supplies, and other resources necessary for students' participation in the District's educational program are made available to them at no cost.

No student shall be required to pay a fee, deposit, or other charge for his/her participation in an educational activity which constitutes an integral fundamental part of the District's educational program, including co-curricular, curricular, and extracurricular activities. (Education Code 49010, 49011; 5 CCR 350)

In relation to the District's educational program, only those fees, charges, or deposits that are specifically authorized by law may be imposed. (5 CCR 350; Education Code 49010, 49011)

The Superintendent or designee shall prepare guidelines and protocols regarding permissible fees, deposits, and other charges which are specifically authorized by law. Among other specifications, the guidelines and protocols shall set forth the fees pursuant to Education Code section 17551 for the sale of personal property that students have fabricated using materials that the District furnished. The guidelines and protocols shall be subject to periodic Board review and approval.

The prohibition against student fees shall not prevent the District from soliciting for donations, conducting fundraising activities, or providing prizes or other recognition for participants in such activities and events. The Superintendent or designee shall emphasize that participation of students, parents/guardians, District employees, volunteers, or educational or civic organizations in such activities and events is voluntary. The District shall not offer or award to a student any course credit or privileges related to educational activities in exchange for voluntary donations or participation in fundraising activities by or on behalf of the student. The District also shall not remove or threaten to remove from a student any course credit or privileges related to educational activities, or otherwise discriminate against the student, due to a lack of voluntary donations or participation in fundraising activities by or on behalf of the student.

Complaints

A complaint alleging District noncompliance with the prohibition against requiring student fees, deposits, or other charges shall be filed in accordance with the District's uniform complaint procedures. (Education Code 49013)

If, upon investigation, the District finds merit in the complaint, the Superintendent or designee shall recommend, and the Board shall adopt an appropriate remedy to be provided to all affected students and parents/guardians in accordance with 5 CCR 4600.

Information related to the prohibition against requiring students to pay fees for participation in an educational activity shall be included in the District's annual notification of uniform complaint procedures to be provided to all students, parents/guardians, employees, and other interested parties pursuant to 5 CCR 4622. (Education Code 49013)

Collection of Debt

The Superintendent or designee shall, in accordance with law, recover any debt owed to the District as a result of unpaid permissible student fees approved by the Board. However, the District shall not bill a current or former student for accumulated debt. In addition, the District shall not, nor take negative action against a student or former student because of such debt, including, but not limited to, any of the following: (Education Code 49014)

- 1. Denying full credit for any class assignment.
- 2. Denying full and equal participation in any classroom activity.
- 3. Denying access to the library or other on-campus educational facilities.
- 4. Denying or withholding grades or transcripts.
- 5. Denying or withholding a diploma.
- 6. Limiting or barring participation in an extracurricular activity, club, or sport.
- 7. Limiting or excluding the student from participation in an educational activity, field trip, or school ceremony.

The Board directs the Superintendent to establish procedures for the control of lost or damaged District materials and damage in excess of fair wear and tear; to initiate reimbursement structures for fines or charges for lost or damaged property or damage to library property; and for nonpayment of food provided by the District, and authorizes the collection thereof. If reparation is not excused and not paid by the student or parent/guardian, the District may withhold the student's grades, diploma and transcripts in accordance with law and Board Policy as outlined in Administrative Regulation No. 4604.

- A. Textbooks, Equipment, Library/Research Materials, and Physical Learning Environments for Student Use in the Learning Process
 - The Governing Board provides textbooks, equipment, library/research materials, and physical learning environments for student use in the learning process. These items remain the property of the District and proper utilization and care of these items is necessary to ensure fair use and

access by all concerned. Materials should be returned to the District in good condition with no more wear and tear than usually results from normal use. When materials are lost or become unusable because of damage, the student shall be issued a replacement material; however, students or parents/guardians shall be responsible for reparation equal to the current replacement cost of the materials. When materials are damaged but still usable, the Superintendent or designee shall determine an appropriate charge.

B. National School Lunch and Breakfast Program

The Board establishes the cost of food provided to the District's students through the District's Food Services Program. Food may be paid for on a daily basis or parents may deposit money into an account for food purchases by their child throughout the school year. When the student's account becomes low or has a negative balance parents will be notified in writing and shall be responsible for reparation.

FINANCIAL REPORTS AND ACCOUNTABILITY

PURPOSE: To establish procedures for financial reporting and accountability.

The Board is committed to ensuring public accountability and the fiscal health of the District. The Board shall adopt sound fiscal policies, oversee the District's financial condition, and continually evaluate whether the District's budget and financial operations support the District's goals for student achievement.

The Superintendent or designee shall ensure that all financial reports are prepared in accordance with law and in conformity with generally accepted accounting principles and financial reporting standards stipulated by the Governmental Accounting Standards Board and the California Department of Education (CDE). He/she shall establish a system of ongoing internal controls to ensure the reliability of financial reporting.

When required by law or the Board, the Superintendent or designee shall submit to the Board reports of the District's financial status, including, but not limited to, any report specified in this Board policy or accompanying administrative regulation. When any such report must be approved by the Board prior to its submission to a local, state, and/or federal agency, the Superintendent or designee shall provide the report to the Board in sufficient time to enable the Board to carefully review the report and meet any applicable submission deadline.

The Superintendent or designee shall regularly communicate the District's financial position to the public and shall use financial reports to determine what actions and budget amendments, if any, are needed to ensure the District's financial stability.

If District conditions predict fiscal distress or indicate that the District might not be able to meet its fiscal obligations, the Board and Superintendent or designee shall act quickly to identify and resolve these conditions. The Board shall work cooperatively with the Fresno County Superintendent of Schools (County Superintendent) to improve the District's fiscal health and may contract with an external individual or organization to advise the District on fiscal matters.

A. Unaudited Actual Receipts and Expenditures

On or before September 15, the Board shall approve and file with the County Superintendent a statement of the District's unaudited actual receipts and expenditures for the preceding fiscal year. The Superintendent or designee shall prepare this statement using the state's standardized account code structure (SACS) as prescribed by the Superintendent of Public Instruction (SPI). (Education Code 42100)

B. Gann Appropriations Limit Resolution

On or before September 15, the Board shall adopt a resolution identifying, pursuant to Government Code sections 7900-7914, the District's estimated appropriations limit for the current fiscal year and the actual appropriations limit for the preceding fiscal year. Documentation used to identify these limits shall be made available to the public on the day of the Board meeting. (Education Code 42132; Government Code 7910)

C. Interim Reports/Certification of Ability to Meet Fiscal Obligations

The Superintendent or designee shall submit two interim fiscal reports to the Board, the first report covering the District's financial and budgetary status for the period ending October 31 and the second report covering the period ending January 31. The reports and supporting data shall be made available by the District for public review. (Education Code 42130)

Within 45 days after the close of the period reported, the Board shall approve the interim report and certify, on the basis of the interim report and any additional financial information known by the Board, whether the District will be able to meet its fiscal obligations for the remainder of the fiscal year and, based on current forecasts, for the two subsequent fiscal years. The certification shall be classified as one of the following: (Education Code 42130, 42131)

- 1. "Positive certification" indicating that the District will meet its financial obligations for the current fiscal year and two subsequent fiscal years.
- 2. "Qualified certification" indicating that the District may not meet its financial obligations for the current fiscal year or two subsequent fiscal years.
- 3. "Negative certification" indicating that the District will be unable to meet its financial obligations for the remainder of the fiscal year or the subsequent fiscal year.

The Superintendent or designee shall submit a copy of each interim report and certification to the County Superintendent using the state's SACS software, as prescribed by the SPI. (Education Code 42130, 42131)

If the District's certification is subsequently changed by the County Superintendent from a positive to a qualified or negative certification, or from a qualified to a negative certification, the Board may appeal the decision to the SPI within five days of receiving the notice of change. (Education Code 42131)

Whenever the District receives a qualified or negative certification from the Board or the County Superintendent, the Superintendent or designee shall cooperate in the implementation of any remedial actions taken or prescribed by the County Superintendent under the authority granted to him/her pursuant to Education Code 42131.

If the second interim report is accompanied by a qualified or negative certification, the Board shall, no later than June 1, provide to the County Superintendent, the State Controller, and the SPI a financial statement as of April 30 ("third interim report") that projects the District's fund and cash balances through June 30. (Education Code 42131)

At any time during the year when the County Superintendent conducts a comprehensive review of the District's financial and budgetary conditions after he/she has determined that the District's budget does not comply with state criteria and standards for fiscal stability, the Board shall review the County Superintendent's recommendations at a public Board meeting. Within 15 days of receiving the report, the District shall notify the County Superintendent and the SPI of its proposed actions on the recommendation. (Education Code 42637)

D. Audit Report

By April 1 of each year, the Board shall provide for an annual audit of the District's books and accounts. (Education Code 41020)

To conduct the audit, the Board shall select a certified public accountant or public accountant licensed by the State Board of Accountancy from among those deemed qualified by the State Controller. (Education Code 41020, 41020.5)

The Board shall not select any public accounting firm to provide audit services if the lead or coordinating audit partner having primary responsibility for the audit, or the audit partner responsible for reviewing the audit, has performed audit services for the District in each of the six previous fiscal years. (Education Code 41020)

No later than December 15, the report of the audit for the preceding fiscal year shall be filed with the County Superintendent, the CDE, and the State Controller. (Education Code 41020)

Prior to December 15 whenever possible, but in no case later than January 31, the Board shall review, at an open meeting, the annual District audit for the prior year, any audit exceptions identified in that audit, the recommendations or findings of any management letter issued by the auditor, and any description of correction or plans to correct any exceptions or any issue raised in a management letter. (Education Code 41020.3)

The Board shall have an opportunity at the meeting to ask questions of the auditor and request further information about the audit findings.

E. Audit Committee

The Board may appoint an audit committee composed of staff knowledgeable about fiscal matters, other staff, and representatives of the community.

The committee shall serve in an advisory capacity and may:

- 1. Make recommendations regarding the selection of the external independent auditor in accordance with Education Code 41020 and 41020.5.
- 2. Review the plan for the audit process with the independent auditor to determine the adequacy of the nature, scope, and timetable of the audit.
- 3. Review the results of the audit and participate with the independent auditor and management in preparing final recommendations and responses.
- 4. Participate with the independent auditor in presenting the audit report to the Board.
- 5. Review Board policies and administrative regulations to recommend any revisions needed to ensure effective financial reporting.
- 6. Provide input on the effectiveness of the independent auditor.
- 7. Periodically report to the Board regarding the status of previous audit recommendations for improving the accounting and internal control systems.

DEBT ISSUANCE AND MANAGEMENT-POLICY

PURPOSE:

To provide a functional tool for debt management and capital planning, as well as to enhance the District's ability to manage its debt in a conservative and prudent manner

This Debt Management Policy (the "Debt Policy") of the Clovis Unified School District (the "District") was approved by the District's Governing Board on June 28, 2017. The Debt Policy may be amended by the Governing Board as it deems appropriate from time to time in the prudent management of the debt of the District.

1. Findings

This Debt Ppolicy is intended to ensure the District's compliance with Government Code Section 8855(i), effective as of January 1, 2017, and shall govern all debt undertaken by the District.

The District hereby recognizes that a fiscally prudent debt policy is required in order to:

- Maintain the District's sound financial position.
- Ensure the District has the flexibility to respond to changes in future service priorities, revenue levels, and operating expenses.
- Protect the District's credit-worthiness.
- Ensure that all debt is structured in order to protect both current and future taxpayers, and the District's general fund, from poorly structured or overly costly capital financings.
- Ensure that the District's debt is consistent with the District's planning goals and objectives, facilities planning documentation and/or budget, as applicable.

2. Debt Policies

A. Policy Goals Related to Planning Goals and Objectives

The District is committed to long-term financial planning, maintaining appropriate reserves levels and employing prudent practices in governance, management and budget administration. The District intends to issue debt for the purposes stated in this policy and to implement policy decisions incorporated in the District's annual operations budget.

It is a policy goal of the District to protect taxpayers and constituents by utilizing conservative financing methods and techniques so as to obtain the highest practical credit ratings (if applicable) and the lowest practical borrowing costs.

The District will comply with applicable state and federal laws as they pertain to the maximum term of debt and the procedures for levying and imposing any related taxes, fees and charges, as applicable, and in the case of refinancing of existing debt, achieving savings as may be required by law or achieving other objectives of substantial benefit to the District, the rationale for which is presented to the Board at the public meeting at which the proposed refinancing is considered.

BA. Purposes For Which Debt May Be Issued

- (i) <u>Long-Term Debt</u>. Long-term debt may be issued to finance the construction, acquisition, and rehabilitation of capital improvements and facilities, equipment and land to be owned and operated by the District.
 - (a) Long-term debt financings are appropriate when the following conditions exist:
 - When the project to be financed is necessary to provide basic services.
 - When the project to be financed will provide benefit to constituents over multiple years.
 - When total debt does not constitute an unreasonable burden to the District and its taxpayers.
 - When the debt is used to refinance outstanding debt in order to produce debt service savings or to realize the benefits of a debt restructuring.
 - (b) Long-term debt financings will not generally be considered appropriate for current operating expenses and routine maintenance expenses.
 - (c) The District may use long-term debt financings subject to the following conditions:
 - The project to be financed must be approved by the District's governing bBoard.
 - For obligations issued on a tax exempt basis, the debt shall meet the following requirement of federal tax law: The weighted average maturity of the debt (or the portion of the debt allocated to the project) will not exceed the average useful life of the project to be financed by more than 20%.

- The District estimates that the identified source of repayment, whether property taxes, general fund revenues or other identified source, will be available to service the debt through its maturity.
- The District determines that the issuance of the debt will comply with applicable state and federal laws.
- (ii) Short-term debt. Short-term debt may be issued to provide financing for the District's operational cash flows in order to maintain a steady and even cash flow balance. Short-term debt may also be used to finance short-lived capital projects; for example, the District may undertake lease-purchase financing for equipment. Short-term debt may also be undertaken for interim or bridge financings, such as bond or grant anticipation notes, provided that the District Board is provided with the related long term financing and repayment plan in connection with approval of such financings.
- (iii) <u>Financings on Behalf of Other Entities</u>. The District may also find it beneficial to issue debt on behalf of or in concert with other governmental agencies, nonprofit corporations or other authorities in order to further the public purposes of the District. In such cases, the District shall take reasonable steps to confirm the financial feasibility of the project to be financed and the financial solvency of any borrower and that the issuance of such debt is consistent with thise policyies set forth herein.

CB. Types of Debt That May be Issued

The following types of debt are allowable under this Debt Ppolicy:

- gGeneral obligation bonds.
- bBond or grant anticipation notes.
- **Lease revenue bonds, certificates of participation, lease and sublease and lease-purchase transactions.
- Other revenue bonds and certificates of participation.
- Tax and revenue anticipation notes.
- #Land-secured financings, such as special tax revenue bonds issued under the Mello-Roos Community Facilities Act of 1982, as amended.

The Board District may from time to time find that other forms of debt would be beneficial to further its public purposes and may approve such debt without an amendment of this Debt Ppolicy.

Debt shall be issued as fixed rate debt unless the District makes a specific determination as to why a variable rate issue would be beneficial to the District in a specific circumstance.

DC. Relationship of Debt to Capital Improvement Program and Budget

The District is committed to long-term capital planning. The District intends to issue debt for the purposes stated in this Debt Ppolicy and to implement policy decisions incorporated in the District's capital budget and master facilities plan.

The District shall strive to fund the upkeep and maintenance of its infrastructure and facilities due to normal wear and tear through the expenditure of available operating revenues. The District shall seek to avoid the use of debt to fund infrastructure and facilities improvements that are the result of normal wear and tear.

The District shall integrate its debt issuances with the goals of its capital improvement or master facilities plan by timing the issuance of debt to ensure that projects are available when needed in furtherance of the District's public purposes.

The District shall seek to issue debt in a timely manner to avoid having to make unplanned expenditures for capital improvements or equipment from its general fund.

D. Policy Goals Related to Planning Goals and Objectives

The District is committed to long-term financial planning, maintaining appropriate reserves levels and employing prudent practices in governance, management and budget administration. The District intends to issue debt for the purposes stated in this Policy and to implement policy decisions incorporated in the District's annual operations budget.

It is a policy goal of the District to protect taxpayers and constituents by utilizing conservative financing methods and techniques so as to obtain the highest practical credit ratings (if applicable) and the lowest practical borrowing costs.

The District will comply with applicable state and federal law as it pertains to the maximum term of debt and the procedures for levying and imposing any related taxes, fees and charges, as applicable, and in the case of refinancing of existing debt, achieving savings as may be required by law or achieving other objectives of substantial benefit to the District, the rationale for which is presented to the governing board at the public meeting at which the proposed refinancing is considered.

E. Internal Control Procedures

(i) <u>Compliance With Debt Policy.</u> The District's Superintendent and Associate Superintendent of Administrative Servicesbusiness official is responsible for implementing and monitoring compliance with this Debt Ppolicy.

- (ii) Compliance with SEC Rule 15c2-12. The District may have undertaken, and may undertake in the future, obligations for continuing disclosure pursuant to SEC Rule 15c2-12. The District's Associate Superintendent of Administrative Servicesbusiness official will periodically review the requirements of Rule 15c2-12 and each of the District's undertakings, and ensure that annual and other periodic filings which may be required are done in a complete and timely manner. The District's Associate Superintendent of Administrative Servicesbusiness official may monitor, prepare and make the District's required filings, or may engage a third-party dissemination agent to assist the District to make complete and timely filings. It shall be the policy of the District as implemented by the District's Associate Superintendent of Administrative Servicesbusiness official to have in place a process for full and complete compliance for the benefit of bondholders or other investors in District debt.
- (iii) Compliance with Federal Tax Laws. The District shall have a policy of full compliance with all applicable federal tax law requirements. In connection with prior and new debt issues, the District's Associate Superintendent of Administrative Servicesbusiness official shall review applicable federal tax requirements, including requirements relating to arbitrage and rebate compliance.

Each draw request shall be approved and signed by the Superintendent, the Associate Superintendent of Administrative Servicesbusiness official or such officer's written designee. The District shall maintain records of the purpose and amount of each draw.
- (vi) CDIAC Reporting. The District has a policy of full compliance with public reporting requirements. SUSTAINABILITY, AND THE DESIGN, AND CONSTRUCTION OF HIGH PERFORMING SCHOOLS

PURPOSE: To improve student and employee environment and reduce operational cost through

reduced energy, water, and utility usage.

The Governing Board is committed to designing new facilities and renovating existing ones that minimize the District's demand for electricity and water in order to help conserve natural resources and to save money to support other District needs.

Students and staff are entitled to a sSafe and healthy school environment are important., and sStudies have indicated that student achievement is greater and attendance higher, and teacher and staff retention is improved, when the learning environment is naturally lit, comfortable, and well maintained. Based on this fact, the District should employ design, construction, and operation strategies that minimize operating costs, in particular for energy and water use.

The District's program to build new schools and renovate existing ones provides a unique opportunity to move beyond standard designs by using the Collaborative for High Performance Schools (CHPS) comprehensive design criteria based on the latest available information on sustainable school design, construction, and operation. Studies show that new facility energy costs can be reduced by 25 percent or more by using the CHPS criteria. Schools that follow sustainable design principals can contribute to the community's environment by minimizing waste and air and water pollution.; therefore, the Governing-Board directs the administration to ensure that every new school, new building and modernization project, from the beginning of the design process, comply with applicable laws and building standards and will incorporate CHPS criteria, as needed, and best practices to the extent feasible.

In addition, the Governing Board directs the Superintendent or designeeadministration to develop an Administrative Regulation outlining the process for accomplishing this effort and to report to the Board annually on the progress of this program. The report shall reflect the number of new schools and modernization projects designed and the percentage which have incorporated CHPS design criteria and other-statistics useful in assessing the progress of this effort.

ENERGY AND WATER MANAGEMENT/CONSERVATION PROGRAM

PURPOSE:

To establish energy and water management and conservation measures in the

District.

The Governing Board is committed to reducing the District's demand for electricity and water in order to help conserve natural resources and to save money to support other District needs. To that end, the Board shall establish goals to help reduce the District's consumption of energy and water.

There shall be established in the District a program to develop awareness among employees and students of the need to conserve energy and water, to monitor energy and water consumption, and develop procedures to conserve energy and water. The program shall include specific strategies designed to help the District use energy and water more efficiently and to help ensure that funds intended for student learning are not diverted to cover energy and water costs. Such a program shall comply with the requirements of the United States Department of Energy and the California Energy Commission, this policy, and any administrative regulations adopted by the Superintendent of the Board.

The implementation of this policy is the joint responsibility of the Governing Board, the Superintendent, administrators, teachers, students and support personnel and its success is based on cooperation at all levels.

The District will maintain accurate records of energy consumption and cost of energy and will provide information to the local media on the goals and progress of the energy conservation program.

The principal/department supervisor will be accountable for energy management at his/her campus/department with energy audits being conducted and conservation program outlines being updated. Judicious use of the various energy systems of each campus/department will be the joint responsibility of the principal/department supervisor and head custodian to ensure that an efficient energy posture is maintained on a daily basis.

To ensure the overall success of the energy management program and water conservation, the following specific areas of emphasis will be adopted:

- 1. All District personnel will be expected to contribute to energy efficiency in theour District. Every person will be expected to be an "energy saver" as well as an "energy consumer."
- 2. Energy management at his/her campus or for his/her department will be a part of the annual evaluation of the principal/department supervisor.

As part of the energy and water efficiency program, the Superintendent or designee shall:

- 1. Analyze the effect of a utility rate increase on the District's budget and develop and implement any necessary contingency plans.
- 2. Regularly inspect District facilities and operations and make recommendations for maintenance and capital expenditures which may help the District reach its energy and water conservation goals.
- 3. Make every effort to identify funding opportunities and cost reducing incentive programs to help the District achieve its conservation goals.
- 4. Develop and implement a preventive maintenance and monitoring plan for District facilities and systems, including HVAC, building envelope and moisture management in order to maintain a safer and healthier learning environment and to complement the energy management program.
- 5. Receive input from staff, students, and parents/guardians related to District usage of energy and water.
- 6. Develop strategies designed to ensure cooperation from students and staff in all conservation efforts. Curriculum will be developed to ensure that every student will participate in the energy management program of the District.
- 7. Recognize those who reduce use of energy and water.
- 8. Periodically report to the Board on the District's progress in meeting energy and water use reduction goals.

Storm Water Management

To the maximum extent practicable, the District shall reduce the discharge of pollutants into the water system in order to minimize the threat to water quality from storm water runoff.

The Superintendent or designee shall ensure that the District complies with storm water discharge standards specified by any applicable General Permit coverage required by law, including all requirements of the Construction General Permit issued by the State Water Resources Control Board for any project that disturbs one acre or more of soil. (40 CFR 122.34)

The Superintendent or designee shall develop a storm water management plan that complies with the provisions of the applicable permit and describes best management practices, design strategies, measurable goals, and timetables for implementation. The plan and a resolution authorizing its implementation shall be submitted to the Board for approval. (40 CFR 122.34)

For all projects, the District shall comply with any city or county ordinance that regulates drainage improvements and conditions. (Government Code 53097)

EQUIPMENT/POWERED INDUSTRIAL TRUCKS/GOLF CARTS

PURPOSE: To establish an inspection system for the upkeep of District equipment and

procedures for the training and operation of powered industrial trucks (PITs).

The Board directs the Superintendent or designee to establish an inspection system for the upkeep of District equipment in accordance with applicable laws. The inspection program shall include an equipment replacement program.

DISTRICT MOBILE DEVICE USE/REIMBURSEMENT

PURPOSE: To establish a procedure for mobile device service and allowance for designated or approved District employees.

The Governing Board recognizes that at times it may be necessary for certain District employees to conduct District related business while away from their job sites or otherwise without access to the regular telephone system or computer workstation. To enhance the efficiency of operations, the Governing Board has approved the support of a mobile device service for designated employees for the purpose of conducting District-related business. When a District employee's position requires the frequent use of a mobile device to conduct District business, the Superintendent or designee may approve that a District-provided mobile device be issued to the employee for his/her use to conduct District business or that an allowance be paid to the employee for use of his/her personally owned mobile device to conduct District business. District-provided Mmobile devices or mobile service allowances service may only be provided to employees whose positions are listed on Exhibit 3513.1(1) or upon Associate Superintendent or Deputy Superintendent approval based on a completed and signed Allowance Agreement for Mobile Device Service (Exhibit 3513.1(2)). Mobile device services include cellular phones, PDAs, pocket PCs, smartphones or any other handheld electronic device used for voice and/or data communication.

The Internal Revenue Service considers mobile devices "listed property" because they lend themselves easily to personal use. District-provided mobile devices should be used only as a means for conducting District business. The Superintendent or designee Administration shall take appropriate action to address the personal use of District-provided-owned mobile devices.

The Superintendent or designee shall establish an administrative regulation to this policy which shall outline employee obligations and responsibilities related to the use of District—providedissued mobile devices or allowances provided to employees. He/she may also establish guidelines and limits on the use of District-provided mobile devices. In determining the amount of the allowance, the Superintendent or designee may consider various factors, including but not limited to, the rates of available mobile device service plans, the cost-savings to the District by employees using their own mobile devices for District business instead of the District purchasing or leasing such devices, and the benefits and services to the District in having employees communicate and conduct District business while away from their offices, and before and after normal business hours.

Employees are expected to abide by all laws regarding the use of a mobile device when driving a motor vehicle.

All employees who use District-provided mobile devices or receive an allowance for the use of their personal mobile devices shall comply with this policy The Superintendent or designee shall

provide a copy of Board Policy No. 4204 and the related the Administrative Regulation and Exhibits to all employees who use District provided mobile devices or receive a reimbursement. Employees shall be asked to acknowledge in writing that they have read and understand these documents.

UNMANNED AIRCRAFT SYSTEMS (DRONES)

PURPOSE: To establish policies and procedures for unmanned aircraft (drone) use over District

property.

The Governing Board recognizes that unmanned aircraft or aerial systems (drones) may be a useful tool to enhance the instructional program and assist with district operations. In order to avoid disruption and maintain the safety, security, and privacy of students, staff, and visitors, any person or entity desiring to use a drone on or over dDistrict property shall submit a written request for permission to the Superintendent or designee.

A small unmanned aircraft system or drone is an aircraft weighing less than 55 pounds that is operated remotely without the possibility of direct human intervention from within or on the aircraft and the associated elements, including communication links and controls, required for the pilot to operate the aircraft safely and efficiently. It does not include model aircraft or rockets such as those which are radio controlled and used only for hobby or recreational purposes. (49 USC 40101 Note; 14 CFR 107.3)

The Superintendent or designee may grant permission to district employees and students for the use of drones only if the planned activity supports instructional, co-curricular, extracurricular, athletic, or operational purposes. Such uses may include, but are not limited to, instruction in science, technology, engineering, and math (STEM), the arts, or other subjects; maintenance of grounds and facilities; and campus security. When used for instructional purposes, there shall be a clear and articulable connection between drone technology and the course curriculum. Students shall only operate a drone on or over dDistrict property under the supervision of a dDistrict employee as part of an authorized activity.

The Superintendent or designee may grant permission to other persons or entities under terms and conditions to be specified in a memorandum of understanding.

Any person or entity requesting to operate a drone on or over dDistrict property, including a dDistrict employee, shall provide a description of the type of operation requested, flight location, date and time of the planned flight, anticipated duration, and whether photos and/or video will be taken. As applicable, the applicant shall also present a copy of his/her Certificate of Waiver or Authorization or exemption issued by the Federal Aviation Administration.

Any person or entity, other than a dDistrict employee or student, who is requesting or operating a drone on or over dDistrict property shall agree to hold the dDistrict harmless from any claims of harm to individuals or property resulting from the operation of the drone and provide proof of adequate liability insurance covering such use.

In determining whether to grant permission for the requested use of a drone, the Superintendent or designee shall consider the intended purpose of the activity and its potential impact on safety, security, and privacy. The decision of the Superintendent or designee shall be final.

Any person authorized to use a drone on dDistrict property shall sign an acknowledgment that he/she understands and will comply with the terms and conditions of the dDistrict's policy, federal law and regulations, state law, and any local ordinances related to the use of drones.

When any use of drones is authorized, the Superintendent or designee shall notify the drone operator of the following conditions:

- 1. The operator is responsible for complying with applicable federal, state, and/or local laws and regulations, including federal safety regulations pursuant to 14 CFR 107.15-107.51 which include, but are not limited to, requirements that the drone not be flown at night, above 400 feet in altitude, or over any people unless they are in a covered structure or stationary vehicle. The operator shall maintain the visual line of sight with the drone at all times.
- 2. The drone shall be kept away from any area reasonably considered private, including, but not limited to, restrooms, locker rooms, and individual homes.
- 3. The dDistrict reserves the right to rescind the authorization for use of drones at any time.

The Superintendent or designee may remove any person engaged in unauthorized drone use on dDistrict property and/or may confiscate the drone. He/she may also shut down the operation of any authorized drone use whenever the operator fails to comply with the terms of the authorization or the use interferes with dDistrict activity, creates electronic interference, or poses unacceptable risks to individuals or property.

Any student or staff member violating this policy shall be subject to disciplinary action in accordance with dDistrict policies and procedures.

Such compliance will meet federal or state requirements necessary to receive disaster relief funding.

Compliance with SEMS and NIMS mandates include but are not limited to establishing an emergency operations plan and completion of training sessions by District personnel, and be regularly updated. The emergency operations plan should also contain information regarding activation and chain of command responsibilities.

STUDENT TRANSPORTATION MANAGEMENT

PURPOSE:

To establish a student transportation program with effective rules and regulations for eligible students.

The Board, in accordance with the Education Code, directs the Superintendent or his designee to establish rules and regulations regarding:

- Ridership eligibility.
- Conduct of students while riding on school buses.
- Appropriate classroom instruction, emergency evacuation drills, and instruction in safe bus riding practices.

Transportation to and from school on buses owned, operated and contracted by the District shall be limited to students attending the Clovis Unified School-District. Home-to-school transportation is a non-mandated program and is a privilege.

The Board may purchase, rent, or lease vehicles; contract with a common carrier or municipally owned transit system; contract with responsible private parties including the parent/guardian of the student being transported; and/or contract with the county superintendent of schools. (Education Code 35330, 39800, 39801)

In contracting for transportation services, the District shall comply with all applicable laws related to bids and contracts. (Education Code 39802-39803)

No student shall be required to be transported for any reason without the written permission of the student's parent/guardian, except in emergency situations involving illness or injury to the student pursuant to Education Code 35350 or the evacuation of students as necessary for their safety.

A. General

- The general policy of the District is to make a transportation program available for students who live outside an established radius zone* as outlined below and for those meeting the eligibility criteria for ridership.
 - 1. The established radius zone distance for students shall be as follows:
 - a. For grades K-6, the radius zone will be drawn at a distance of one (1) mile from the school site.
 - b. For grades 7-12, the radius zone will be drawn at a distance of two and one half (2.5) miles from the school site.

Students who live within the radius zones as defined above will not be provided transportation regardless of the distance to the assigned** school.

- Modifications to the radius zone distance may be for special pockets*** as outlined below.
 Students who live inside special pockets as defined may or may not be eligible for home-to-school transportation regardless of the distance to school.
 - *Radius Zone: The area measured by drawing a circular radius from a central location established at the school site campus and around the school within the school's attendance boundary.
 - **Assigned School: The school within the student's attendance area or the school where the student has been assigned.
 - ***Special Pockets: Areas of a neighborhood that are outside the radius zones but with similar walking conditions of students not receiving transportation, and areas which the

District Superintendent or designee has defined as critical to the academic success and attendance.

Consistent with the established radius zones, the following elementary schools are not eligible for home-to-school or recreation/intervention transportation:

Cole	Copper Hills	Freedom	Ft. Washington
Garfield	Jefferson	Lincoln	Maple Creek
Mickey Cox	Miramonte	Mt View	Red Bank
Torney	Weldon		

- 3. Notwithstanding the established radius zones, transportation will be offered to students regardless of the distance to their school site who reside within areas where "adequate walking" pathways are not available while walking to and from school. It may be necessary for students to walk an indirect route or longer distance to a location where traffic control devices do exist for their safety. Adequate walking pathways shall be defined as follows:
 - Urban: Traffic control devices are in place at major intersections (signalization).
 An all-weather surface is provided for the majority of pathway (concrete, asphalt, gravel). Pathways should be a minimum of three feet in width. Student should not be forced to walk into the roadway while walking.
 - Suburban: Traffic control devices are in place at major intersections (signalization
 or stop sign). An all weather surface is desirable for the majority of pathways
 (concrete, asphalt, gravel). Pathways should be a minimum of three feet in width.
 Students may need to utilize the roadway on occasions while walking to and from
 school or the bus stop.

- Rural: Limited traffic control devices are in place at major intersections. Pathway
 surfaces with concrete, asphalt, gravel or dirt may be utilized. Students may need
 to utilize the roadway on occasions while walking to and from school or the bus
 stop.
- 4. The policy regarding walking and radius distances and adequate walking pathways shall be open for administrative interpretation, subject to approval of the Board, when factors such as safety, terrain, hardship, highway patrol recommendations, etc., enter into consideration.
- Bus stops shall not be established within radius zones, as set forth above, except by special order of the Board.

B. Fees

- An annual fee schedule shall be established by the Board for home to school transportation services. The Board will review the effectiveness of the fee based home to school transportation program, appropriate radius parameters, and fee level on an annual basis
- 2. Students living inside the radius zone parameters of one (1) mile for grades K 6, and two and one half (2.5) miles for grades 7-12 may walk to an existing bus stop and receive a ride to and from school provided they pay a fee as established in Administrative Regulation No. 8301. This fee will apply to all students living within the radius zones, and is obtainable on a space available basis which will be determined during the third week of the beginning of each school year.
- Students with special needs, as outlined in their "Individualized Educational Program (IEP)," who require home to school transportation will be provided transportation services at no cost.
- Students who meet the low income eligibility criteria as outlined in Administrative Regulation No. 8301 and live in excess of the established radius zone distance will be provided home to school transportation services at no cost.
- Summer school transportation will be provided at a daily cost per student as outlined in Administrative Regulation No. 8301. Passes will be sold only for the entire summer program. Pick up locations for summer school will be placed at elementary school sites located outside the established radius distance from the summer school site.

C. Leading and Unloading

The driver of a District or District contracted school bus shall escort grades K-12 students attending the schools of the District across the street or highway upon which the bus is stopped.

C. Contracts with Outside Services

With Board approval, the District may enter into a contract for food service consulting services or management services in one or more District schools. (Education Code 45103.5; 42 USC 1758; 7 CFR 210.16)

Procurement of Foods, Equipment and Supplies

To the maximum extent practicable, foods purchased for use in school meals by the District or by any entity purchasing food on its behalf shall be domestic commodities or products. Domestic commodity or product means an agricultural commodity that is produced in the United States and a food product that is processed in the United States substantially using agricultural commodities that are produced in the United States. (42 USC 1760; 7 CFR 210.21)

A nondomestic food product may be purchased for use in the District's food service program when the product is not produced or manufactured in the United States in sufficient and reasonable quantities of a satisfactory quality, or when competitive bids reveal the costs of a United States product are significantly higher than the nondomestic product. In such cases, the Superintendent or designee shall retain documentation justifying the use of the exception.

Furthermore, the District shall accept a bid or price for an agricultural product grown in California before accepting a bid or price for an agricultural product grown outside the state, if the quality of the California-grown product is comparable and the bid or price does not exceed the lowest bid or price of a product produced outside the state. (Food and Agricultural Code 58595)

Bid solicitations and awards for purchases of equipment, materials, or supplies in support of the District's child nutrition program, or for contracts awarded pursuant to Public Contract Code 2000, shall be consistent with the federal procurement standards in 2 CFR 200.318-200.326. Awards shall be let to the most responsive and responsible party. Price shall be the primary consideration, but not the only determining factor, in making such an award. (Public Contract Code 20111)

E. Program Monitoring and Evaluation

The Superintendent or designee shall present to the Board, at least annually, financial reports regarding revenues and expenditures related to the food service program.

The Superintendent or designee shall provide all necessary documentation required for the Administrative Review conducted by the CDE to ensure compliance of the District's food service program with federal requirements related to maintenance of the nonprofit school food service account, meal charges, paid lunch equity, revenue from nonprogram goods, indirect costs, and USDA foods.

The Board recognizes that child nutrition programs have a positive and direct impact upon children's well-being and achievement. To help students and other children in the community remain well-nourished throughout the summer vacation, the District may sponsor a summer meal program as approved by the California Department of Education (CDE).

The District may apply to the CDE to provide meals to children during any extended break in a year-round school schedule. (42 USC 1761; 7 CFR 225.2, 225.6, 225.14)

The District may serve meals at a non-school site in cases of unanticipated school closures, such as a natural disaster, unscheduled major building repair, court order related to school safety or other issues, labor-management dispute, or similar cause as approved by the CDE. (42 USC 1761; 7 CFR 225.6)

The Board authorizes the Superintendent or designee to select one or more sites for summer meal services based on state and federal program criteria and an assessment of family and community needs. When feasible, the Superintendent or designee shall involve local governmental agencies, food banks, and/or community organizations in identifying suitable site locations. The site(s) shall be approved by the CDE before meal service is initiated.

The summer meal program may be offered in conjunction with educational enrichment or recreational activities in order to encourage participation in other wellness and learning opportunities.

The Superintendent or designee may develop and coordinate outreach and promotional activities to inform parents/guardians and the community about the availability of the summer meal program and its location(s) and hours.

The Superintendent or designee shall maintain accurate records of all meals served and shall ensure the timely submission of reimbursement claims in accordance with state procedures.

The Superintendent or designee shall regularly report to the Board regarding program implementation, number of participants at each site, feedback from participating children and their parents/guardians regarding menus and service, and program costs. As needed, the Board mayshall direct the Superintendent or designee to identify program modifications to increase program quality or children's access to meal services.

Board may direct the Superintendent or designee to identify program modifications to increase program quality or children's access to meal services.
